Genotyping Report

| Strain ID | T056046 | Strain Type | KI(Cas9) | Genetic Background | C57BL/6JGpt |
|-----------|---------------|-------------|----------|---------------------|-------------|
| Designer | Tianjiao Wang | Gene Name | 342 | Krt19-DreERT2-polyA | 6 |

1. Strategy of Genotyping

Wild type: ①PCR reaction obtains none band; ②PCR reaction obtains a WT band.

Heterozygote: ①PCR reaction obtains a Targeted band; ②PCR reaction obtains a WT band.

Homozygote: ①PCR reaction obtains a Targeted band; ②PCR reaction obtains none band.

Note: The sizes of WT and Targeted band are shown below. For ②PCR reaction, because the WT band is much smaller than the target band, it is likely to produce dominant amplification, the reaction is only used to judge whether there is a WT allele.

2. Primer Information

| PCR No. | Primer No. | Sequence | Band Size | |
|------------------|-------------|-------------------------|-----------------------------|--|
| ①5'arm | T056046 -F1 | AAAGCCACAGGTGAGGCCTT | WT:0bp Targeted:543bp | |
| | T056046 -R1 | ATCCAGCAGCTTCAGGTCATC | | |
| ②WT GC: 61.0% | T056046 -F1 | AAAGCCACAGGTGAGGGCCTT | WT:346bp Targeted:2597bp | |
| | T056046 -R2 | TCTTCTCATTGCCAGACAGCAGC | Targeteu.2397bp | |

3. Gel Image & Conclusion

Note: P:Positive control; WT: Wildype control; B: Blank control (ddH2O); M: DNA Ladder

- ① Control (WT): It is an important reference mark for whether the PCR reaction is successful and whether the product band position and size meet the theoretical requirements.
- ② Control (B): PCR amplification was performed without template in the PCR reagent to monitor whether the reagent was contaminated.

4. PCR Condition

| PCR Reaction Compo | nent | , O. J. | 5, 'So | | |
|--------------------|-------------------------------------|------------------|--|--|--|
| Seg. | reaction comp | onent | Volume (μl) | | |
| 1 ? | 2 × Rapid Taq Master Mix (Vazyme P2 | 12.5 | | | |
| 2 % | ddH2O | 90 00 | 9.5 | | |
| 3 70/2 | Primer A(10pmol/μl) | | 1 7 | | |
| 1 70/2 | Primer B(10pmol/μl) | (A) | 12 | | |
| 5 | Template(≈100ng/μl) | ·/ | 1 7 | | |
